4 Group Data Aggregation

	groups	Satisfaction Level S	Last Project Evaluation LPE	Number of Projects NP	Average Number of Hours Worked ANH	Time In Company TIC	Newborn
1	1	0.4082346	0.5106936	2.000000	143.5044	3.000000	0
2	2	0.7355272	0.8732588	4.476038	237.7732	4.811502	0
3	3	0.1028571	0.8715126	6.237395	276.7353	4.115546	0
4	4	0.4455238	0.7195238	3.780952	204.3524	3.866667	1

In this calculation, took 2001 rows (observations) and 7 columns (variables) and we created an aggregation table, choosing 4 groups. Note: each row (observation) result under each column (variable) is a calculated "Mean". Where 4 groups are created calculating the average value of the corresponding variable.
